

HF Amplifiers

CODAN 500 W & 1 kW HF Power Amplifiers 3061 and 3062

CODAN HF SSB Power Amplifiers are reliable, affordable and designed for use with our CODAN NGT HF SSB transceivers. The CODAN 3061 and 3062 provide 500W PEP and 1000W PEP output power respectively, and are suitable for voice and data operation.

150 Watt Military HF Amplifier Q-MAC QM9201M

The Q-MAC HF-150M HF SSB Power Amplifier increases the output Compatible with power of HF-90M transceivers to 150 Watts PEP

across the HF
HF-90M
Transceiver
frequency band.
The HF-150M is
designed for
applications
where medium
power tactical
communications
is required.
Applications
include land
mobile vehicles,
tracked
vehicles, patrol
boats and base
station
installations.
